

Alfinda says, 'Can you really be trained to tackle ANY language in the world? I can confidently say 'YES!' Language learning will still be difficult but I now have the toolbox to get started, a framework to guide the progress, and can find help when I need it.'

Christine is offering literacy training support in the Asia-Pacific region. 'The mixture of coursework and testimonies from experienced personnel provided valuable insights and practical strategies for living and learning in cross-cultural communities...'

Guin is a Translation Advisor based in Papua. Guin says '...apart from an essential introduction to the variety of sounds and structures in different languages, **LAUNCH** gave me a deeper understanding of cultural issues—something that has been a key factor in training others...'

## Location

Our campus is in an attractive rural setting on the Wycliffe National Centre at Kangaroo Ground, 35 km north-east of the city of Melbourne.

## Student facilities

The campus has air-conditioned classrooms and fully equipped computer facilities. Our library has over 20,000 items focussing on linguistics, translation and anthropology.

## Accommodation

Comfortable on-site accommodation, managed by Wycliffe Australia, is available for singles and families. The course is self-catering.

# LAUNCH

*your cross-cultural career  
with our language and  
culture course*

**4 January–15 February 2019**

## Why take this course?

SIL Australia's **LAUNCH** course is essential preparation if you are planning to work cross-culturally in Australia or overseas, and in particular if you need to learn another language.

This course is intensive, but our experienced trainers are committed to supporting you so you can benefit regardless of your level of previous experience or confidence. Come and put us to the test!

*Learning an amazing variety of language sounds*

In **Anthropology** you will

- » discover and engage with worldviews of other cultures and identify your own cultural biases
- » learn to observe and reflect on cultural events
- » develop good cross-cultural relationships

**Phonetics** will stretch your mouth and train your ears to distinguish the amazing variety of sounds in the languages of the world.

**Language Learning** will help you succeed at learning another language. In small groups you will apply strategies and techniques to learn another language from a native speaker.

**Language Awareness** introduces you to some fascinating aspects of language and language structure. This will also enhance your ability to learn another language.

# LAUNCH

*Don't leave home without it!*

*Phonetics practice Twister-style*

**For more information** on the course, including details of fees and accommodation costs, see our website or contact us by phone or email.
